Sir:

In response to the 06/15/2005 Office Action, applicants submit an amendment to the specification beginning at page 2, an amendment to the claims beginning at page 3, and a REMARKS section beginning at page 10.

The interview courteously granted to applicants' representative on July 19, 2005, is acknowledged with appreciation. During the interview, the examiner advised that the second co-extruded layer in claim 1 be amended to "consisting essentially of a polymer selected from the group consisting of ionomer and ionomer-polyamide blend" and that a CIP be filed to prosecute the recitation of ionomer-polyethylene. This and other discussions are incorporated in the following amended claims.
